

COMPLETE ELECTION RETURNS FOR GLENDAL

C. E. PECK'S NEPHEW HEADED SHELTON RESCUE PARTY

Has Been Medical Missionary in Orient for 21 Years and
Enjoys Confidence of Officials of All Christians
in China—Has Big Hospital at Fu Chu

C. E. Peck, who has long been a resident of Glendale, had a more than ordinary interest in the address made before the Christian Endeavor convention, Monday night, by Dr. A. L. Shelton, medical missionary to Tibet, and his thrilling account of his capture by bandits and release through agencies set in motion by three great nations, the United States of America, France and Great Britain.

Dr. E. I. Osgood, who represented the United States in the expedition then sent out to rescue Dr. Shelton, is a nephew of Mr. Peck, and his doings in that great enterprise and the story of Dr. Shelton's sufferings have quite naturally been of the greatest interest to Mr. Peck. It was therefore a treat to him to see the man in whose behalf Dr. Osgood had acted.

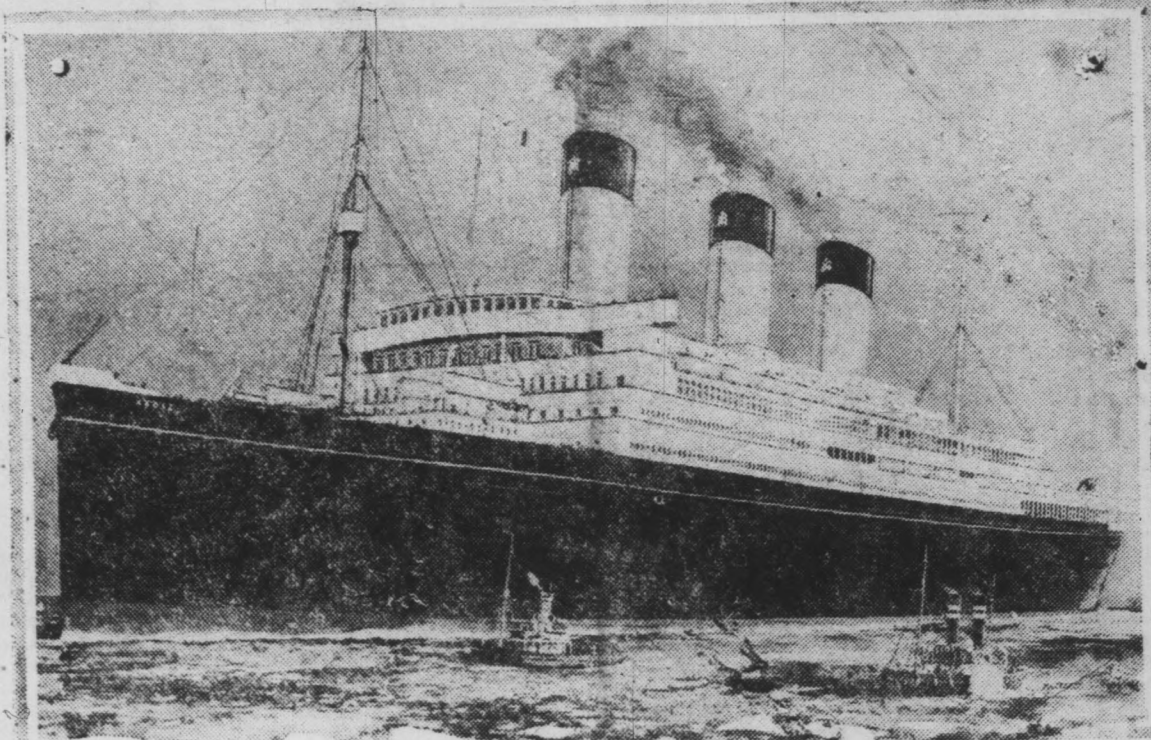

Dr. Osgood has been a medical mis-

sionary in the Orient for the past 21 years and is at the head of a great hospital at Fu Chu, China, where he has won the confidence and respect of the official representatives of all the Christian nations.

Left an orphan when a baby, he shared with his uncles the home of his grandparents and by them his education for the great work he has since performed was financed. He was graduated from Hiram college, the denomination school of the Christian church and secured his medical degree from the Medical college of Cleveland, O. He is the author of the celebrated book, "Breaking Down the Walls of China."

The first to greet Dr. Shelton when the expedition for his release overtook the missionary on his way out after his escape from his captors, was Dr. Osgood.

MAJESTIC, THE WORLD'S LARGEST SHIP

Help Wanted

The halls committee of the Glendale Christian Endeavor convention committee makes an appeal for men to assist in taking down the John Brown tabernacle on Thursday, June 30, and Friday, July 1. Anyone willing to assist in this work will please call Glendale 813-J.

Titanic Greyhound of Sea to Outrank Leviathan by 2000 Tons—Will Carry 3536 Passengers—Was Launched in 1914 by Germany as the Bismarck

(By International News Service) NEW YORK, June 29.—The world's largest ship, the Majestic, will soon be operating between this port and Southampton, England, according to announcement made here recently by the International Mercantile Company. The Titanic sea palace is now being completed at Hamburg, Germany.

Fifty times as large as any of the packet ships that laid the foundation of transatlantic travel a century ago, the Majestic, registering 56,000 tons, will nearly equal that of all the 132 vessels that formed the famed Spanish armada.

Designed as the pride of the German merchant marine and launched in 1914 for the purpose of eclipsing the great ocean greyhounds under the flag of rival nations, this huge ship was christened by the then Kaiser and was named for Bismarck. But for the war she would have been commissioned in 1915, the last word in luxurious transportation and a powerful factor in Germany's program for maritime supremacy.

As the war progressed announcements were made from time to time that the then Kaiser had ordered the big ship to be ready for service the day peace was won by the Germans. The armistice found the ship no further completed than when launched. The peace treaty provided that the Germans should complete the vessel

as designed and turn her over, to the Reparations Commission.

The commission has already taken over the ship and has sold her to the White Star Line, which is owned by Americans.

LEVIATHAN RANKS SECOND.

Work on the big ship is reported to be progressing satisfactorily at Hamburg and, barring interruptions, the ship will be ready for delivery in 1922.

The Majestic is built on lines similar to those of the Leviathan, which is second to her in size, the latter being 2,000 tons smaller. The Leviathan, now under the American flag, has lain at Hoboken for the last eighteen months awaiting official action by the United States Shipping Board as to her disposal.

The Majestic's dimensions are: Length over all, 956 feet; breadth, 100 feet; draft, 40 feet. The ship will have capacity for 3,536 passengers, with 1,000 in first cabin alone, and will carry a crew of 1,200. She will be equipped to burn fuel oil and will have tank capacity for about 9,500 tons, or more than enough to feed her fires for a round voyage. Her engines are turbines, with four screws.

The ship will be equipped with a ballroom, a theatre, a winter garden, a restaurant, a Pompeian swimming bath, a gymnasium, a tennis court; a conservatory and kennels.

COMMERCE CHAMBER THANKS VOTERS OF GLENDAL

To the Citizens of Glendale:

"The Glendale Chamber of Commerce wishes to express its thanks and gratitude to all the people for their splendid work in voting for the swimming pool bonds. It is one great forward step, one more link of progress, in completing the chain that will hold this fair city aloft as one of the most desirable places in the known world to live in.

"This swimming pool is much needed. There are many more things we need and step by step, we will continue to go forward until the good name of Glendale will be echoed far across this broad land.

"We thank all those who so nobly assisted in this great work and plead with all our people for cooperation in the future work of deep interest to all. Yours for a Greater Glendale, "Glendale Chamber of Commerce, "C. C. COOPER, Pres. "JAS. M. RHOADES, Sec."

NEW BOY IN HOME OF HERBERT TAYLOR

Mr. and Mrs. Herbert Taylor of 803 Orange Grove avenue have welcomed to their home a new 9½-pound boy, born last Saturday. He is their third son and he has one sister. Not yet has a name good enough for the little stranger been selected by his parents but though nameless he is thriving.

NEBRASKA SURGEON VISITS FRIENDS IN GLENDAL

Dr. and Mrs. M. B. Ketchum of 439 West Lexington Drive are enjoying a visit from their old time friend and physician, Dr. C. A. Shoemaker, a prominent surgeon of Lincoln, Neb. Dr. Ketchum is an oculist who has had offices in Los Angeles for a number of years and who has recently moved to Glendale. Dr. Shoemaker, who conducts a private hospital in Lincoln was worn out by his work and came to the coast for rest. He is leaving to spend a few weeks in San Diego and on his return will again be a guest in the home of Dr. Ketchum.

MARGOT BUXTON RETURNS HOME

Mr. and Mrs. Charles M. Turck of South Glendale avenue are desolated over the loss of their little granddaughter, Margot Buxton, who passed the winter with them and is leaving tomorrow morning to return to her parents in Chicago, who feel that they cannot longer spare their little girl. Last Saturday this talented child received a great ovation when she appeared at the Ambassador on a program with the celebrated dancer, Kovert. She has made many friends here and will be greatly missed.

Blow through a pack of cards when shuffling, for luck.

Stephenson, Robinson and Lapham, Three Members of Old Board, Succeed Themselves in Office—Sam Davis and C. E. Kimlin Show Great Strength

CITY CLERK SHERER TRIUMPHANTLY RETURNED

Bonding Proposition for Swimming Pool Carried by Good Majority—Proposition to Issue Bonds for Public Building for Warehouses Was Defeated

The great contest is over. Officials who are to guide the destiny of Glendale under its new charter the coming two years have been chosen and the relief from uncertainty must have been as welcome to the defeated as to the victors.

The main cause for congratulation is the fact that all the candidates were good men and true—the city could not lose out whoever might be elected. A second cause for rejoicing on the part of all who desire a government representative of the wishes of the people is the fact that so large a proportion of the voters came out and registered their desires with ballots.

The charter razed the old structure and the city has erected a new house of parliament, but with some of the old timber in its framework.

Genial Spencer Robinson, a friend to everyone he knows and yet withal a shrewd business man, proved popular everywhere and rolled up a huge vote. His past experience on the board has made him well acquainted with the problems immediately facing the legislative branch. He looks before he leaps, but is not a conservative.

Dwight W. Stephenson

gain, because he demonstrated his fitness in office. As president of the board of trustees he displayed in a signal manner his ability to dispatch business. Many legal points enter into problems brought before the council, and Stephenson's training is a lawyer standing him in good stead. He is clear and decisive in speech, quick of apprehension and his election is most welcome to his colleagues on the board, who know his worth in that position.

Alexander H. Lapham, who was appointed to fill a vacancy on the board of city trustees, though he has served a comparatively short time, has risen to his responsibilities in a manner to entirely justify the confidence of his constituents. He is careful, conscientious and thorough-going, anxious to fully understand every proposition before casting his vote, and equally anxious to serve the best interests of the city.

The contest for the office of city clerk terminated as had been anticipated by many, in the triumphant return of J. C. Sherer, who has filled the position acceptably for many years.

The five candidates for the board of education, were unopposed and were, of course, elected as follows: Eva C. Barton, David Black, Nettie C. Brown, David J. Hibben and Presley O. Lucas.

Bonding proposition No. 2, which provides for a swimming pool, also carried.

The full vote was as follows:

Members of the Council (5)	First	Second	Third	Fourth	Fifth	Sixth	Seventh	Eighth	Ninth	Tenth	Eleventh	Twelfth	Totals
Walter E. Anderson	10	174	105	110	76	109	92	34	62	161	227	16	1617

NO COMPROMISE IN CROWDS THROUGH THE JAMES A. STILLMAN DIVORCE CASE MUDDLE PRESS PLANT TO HEAR RETURNS LAST NIGHT

(By International News Service) POUGHKEEPSIE, N. Y., June 29.—"There is no chance of a compromise. James A. Stillman has his head down and he's going straight for the stone wall."

As the hearings in the great Stillman divorce case were about to be reopened here before Referee Gleason this morning a member of Mrs. Stillman's legal staff made this statement in answer to reports that an eleventh-hour compromise is in sight. The multi-millionaire ex-banker himself was expected to testify either late today or some time tomorrow. His side of the case will be completed before the end of the week, it was announced.

A NEW SALARY SCHEDULE ADOPTED

A new salary schedule was adopted conditionally for Glendale city teachers, at a meeting of the board of school trustees last night, which provides that the minimum grade salary paid will be \$1282.50 per year and the maximum \$1710. Principals of schools and supervisors will have their salaries raised accordingly; supervisors receiving \$1852.50 and the highest salaried principal \$2127.50. No change in salary was made for kindergarten teachers.

This conditional salary schedule will be dependent upon the tax rate that the county supervisors may decide upon in September. The agreement of the board to fix a provisional schedule came about through the request of a salary committee of the Teachers' club.

Three new teachers were elected to the city schools system: Mrs. Carrie C. Macjennan; Miss Jessie Thornton, niece of Colonel Thornton, and Mr. I. E. Mansell, who will be manual training supervisor.

Two new members of the school trustees, Mrs. Eva C. Barton and Dr. Presley O. Lucas, were present at the board meeting. They will formally take office on July 5.

Provision was made to let bids for cement work on sidewalks at the Broadway school and the Intermediate school and for bids on construction work at the Central avenue school to fit a section of the basement for class rooms.

Glendale having become a city of the charter class resolutions were passed whereby affiliations will continue with the county library. These resolutions provide that the county will continue the purchase of books for the Glendale school system with library funds based on school attendance. Under ordinary circumstances when a city adopts a charter the county library and the school system of that city discontinue their relationship.

Decidedly metropolitan was the scene at the plant of the Glendale Daily Press last night where wildly honking automobiles parked to gather election returns from the screen in front of the plant, on which they were flashed as rapidly as brought in by tireless reporters making their rounds every half hour from precinct to precinct. Lining the sidewalks were eager spectators striving to learn how favorite candidates had fared at the hands of voters, who cheered or groaned as the figures pleased or disappointed them.

In the office itself a struggling mass of enthusiastic campaign workers hung over the counters to catch every figure turned out by the skillful operator of the adding machine which counted up the crop of votes at each round. In the background no less interested were women voters, willing to give way to their "worse" halves to whom politics is always an absorbing game.

The most exciting election Glendale ever had? Yes, but a well ordered election with very little real bitterness, but instead a great conviction in the hearts of the voters that whoever won the city could not lose because all its candidates were good citizens.

FIFTY PER CENT VOTE IS POLLED

Slightly better than a 50 per cent vote was polled at the municipal elections in Glendale yesterday. Out of 8195 registered voters in the city it was determined at noon today that 4270 had cast ballots. The heaviest vote cast was in the election of members of the city council. Members of the election boards report that in numerous cases ballots were marked on only one or two issues. The number of votes cast in each precinct was as follows:

Precinct No.	Votes Cast
One	57
Two	637
Three	445
Four	477
Five	428
Six	356
Seven	399
Eight	276
Nine	307
Ten	449
Eleven	379
Twelve	50
Total	4270

"I claim that congressmen are paid more than they are worth."
"How much are they paid?"
"I don't know."

GOLDEN WEDDING TO BE CELEBRATED AT G. A. R. HALL

The big social affair of the month comes off tonight at the G. A. R. hall. It is more than a function for it is a celebration of the domestic happiness of two people who have helped to make history, the 50th anniversary of the marriage of Mr. and Mrs. R. L. Milligan of 114 East Park avenue. Forty years ago today the twain became one and established their home as pioneers near Humboldt in Allen county, Kansas. The "sunflower state" could not show much except sunflowers then, and the scattered dwelling were all little "shacks." Now it is a rich oil and gas district wherein the farmers drive costly automobile instead of plow horses hitched to a farm wagon.

Only one guest will be at the hall tonight to congratulate Mr. and Mrs. Milligan who was at their wedding. That guest is Mrs. G. T. Fulkerson of Los Angeles.

Thomas F. Milligan, son of the honorees, his wife, his twin daughters and little son, arrived from Spokane yesterday, to add their quota to the joy of the occasion. They were accompanied by an old friend, Mrs. Preston from the same northern city.

This worthy couple are old residents of the southern district, and have been actively identified with the Post and Corps of the G. A. R. for many years. Mrs. Milligan being a past president of the corps. To all their comrades and associates in these patriotic bodies the wedding celebration will be of the greatest interest and it will be largely attended.

STRENUOUS TASK OF PRECINCT OFFICERS

Precinct officers had a strenuous task during the election. The polls opened at 6 a. m., and the count in many precincts lasted until nearly 6 a. m. today. The length of the ballot and the full vote prolonged a job that is ordinarily finished in the early evening. The city should adequately compensate these conscientious workers, who must have been exhausted by their vigils.

(By International News Service) WALTHAM, Mass., June 29.—Edith Wye Barber, of Highland street, Newtonville, drove her car at thirty miles an hour through Waltham while eating lunch. In the Waltham Court she admitted her offense and paid a fine of \$10 on a charge of speeding.

Though men make houses—
IT IS WOMEN WHO MAKE HOMES

Hasn't it ever occurred to you that money spent in monthly rent is practically thrown away? If you buy a house, you can not only select the style of architecture and the furniture which you like best, but you are actually putting just so much money in the bank. J. F. Stanford or 112½ South Brand boulevard has some excellent "buys" in houses and bungalows, and on most attractive terms, too.

HARMONIOUS ATMOSPHERE

The walls and their proper papering is a most important factor in decorating a house. Mr. L. H. Allison of 105 W. Broadway, specializes in interior decorating, and always contemplates the decorating of a room from the standpoint of making it at once effective, satisfying and withal—sincere. Mr. Allison says that wall paper must act as a background to its owner's personality, and he claims that it is his joy to create an atmosphere completely harmonious. The L. H. Allison Co. carries a complete line of artistic and practical wall papers, and an interesting fact is, that their prices are considerably less than those of dealers in the city who are selling the same company's goods! If you have been thinking of re-papering your home, just stop in at the store, 105 W. Broadway, and look over the exquisite stock of attractive wall papers. You'll be sure to find just what you wish and Mr. Allison will undoubtedly be able to give you some very good suggestions as to color schemes and so forth, that will be invaluable to you in arranging your home in the best of taste.

Advanced news and illustrations from Paris say that the fall will be a big silk season and that also the steady lengthening of the skirt will result in a much longer model than has been seen in some time past.

"Martha Malicia Goes Shopping"

Summer, and the children are home from kindergarten! But what to amuse them? Didn't you know of the special sale of Kiddie Kars at Fisher's Variety Store? Oh! my yes, why they're selling the number one model for \$1.25, number two is only \$1.89, number three at \$2.39 and number four is reduced to \$2.98! You'll find any number of interesting toys for children of all ages, including "automobiles" and tricycles that will keep them happy and contented for hours at a time at Fisher's Variety Store of 212 East Broadway!

Paper will not stick serviceably either to a painted wall or to one finished white or whitewashed, unless the wall is properly prepared.

Wash willow and wicker in natural finish with a scrubbing brush and plenty of warm borax-soapsuds, and dry quickly—in the sun if possible.

CUSTARD ICE CREAM

One teaspoonful Knox sparkling gelatine, 1 quart milk, 2 eggs, 1 cup sugar (scant measure), 1 teaspoonful vanilla, few grains salt. Soak gelatine in two tablespoons of milk, make a custard of the milk, yolks of eggs and sugar and salt, then dissolve the gelatine in the hot custard. Strain and when cold add flavoring and freeze to a mush. Add whites of eggs beaten until stiff and continue freezing.

"HE IS HAPPIEST—BE HE KING OR PEASANT—
WHO FINDS HAPPINESS IN HIS HOME"

THE KEY TO HAPPINESS IN THE HOME
IS—HARMONIOUS SURROUNDINGS

TOMORROW NEVER COMES—
START YOUR ACCOUNT TODAY

Rome wasn't built in a day! Neither was a substantial income ever the fruit of one day's success! Are you laying away your savings now to prepare for future needs? In an emergency your bank book will be your best friend—it will never desert you and you can depend on its being there when you need it most. A small account deposited today at the First National Bank of Glendale on the corner of Brand boulevard and Broadway, will be the nucleus for a comfortable income. For it will grow! It must grow—saving is the most fascinating habit that one may develop! Just a small part of the weekly allowance deposited at the First National Bank each week will soon amount to an interesting sum. Then there's the rate of interest which the First National Bank pay—you will be interested in that, too. Don't let it happen that you will have to forego some excellent opportunity just because you neglected to save for that rainy day! You will find the officials and assistants at the First National Bank always courteous and willing to offer advice and assistance regarding accounts and investments.

A LIFE TIME OF SERVICE

Safety is a paramount issue to be considered when purchasing a washing machine. The new Universal Electric Washer at the Glendale Electric Co., 132 N. Brand Blvd., is entirely enclosed, eliminating all danger to children or the operator from clothes caught in the motor or driving mechanism. It will give service for a lifetime if used according to factory directions, and in ordinary family use will not have to be oiled for several years. In appearance the Universal Washer is a thing of beauty, being decorated in a distinctive blue enamel.

In the year 1900, short curls were the height of fashion and could be purchased for five dollars.

COURTESY AND FRIENDLINESS

But a brief time ago you were paying \$12 and \$15 for the same quality pure thread silk shirts which Robinson's Men's Wear Shop are offering as a special for \$5.95 and \$7.65! There's a splendid selection from which you may make your choice in the well known "Wilson Bros." and "Manhattan" makes in either Jersey, crepe, or broadcloth silks. Truly they are "Shirts that will fit your personality!" You know Robinson's only carry the best quality nationally advertised products, and more value for less money is their motto. To shop at Robinson's Men's Wear Shop is a pleasure, for there one is always greeted with a bright smile and most courteously treated. If you have not quite made up your mind as to just what you wish stop in at Robinson's of 146 South Brand boulevard and look over their excellent stock of shirts, neckwear, hosiery, and in short, everything in the line of exclusive men's wear. It is never any trouble for Mr. Robinson or his assistants to advise one in their selection.

The merchants of Glendale have come here to stay. They are here to BOOST GLENDALE! and make it one of the large cities of California. And it can be done—but not without the help of the people of Glendale! It is for the people of Glendale to show their appreciation and gratitude for the excellent service and remarkably low prices which the merchants of Glendale are offering YOU! If you make all of your own purchases in Glendale and urge your friends to "BUY AT HOME," it is bound to react on the city—to build up businesses and entice others to come to Glendale and open businesses. Show people that Glendale prices are less than in any other city of its size or larger, that it will pay them and is to their interest to BUY AT HOME, first, last and always, and then—
"WATCH GLENDALE GROW!"
Cordially yours,
MARTHA MALICIA.

SERIOUS CHARGE
AGAINST JUDGE

Here's the biggest joke of the whole election yesterday — thinks Judge Lowe.
Up in precinct No. 2 on Central avenue, four ballots were cast which had been marked favorably for the swimming pool bonds only, and Judge Lowe is to blame, in the opinion of those who have followed his arduous campaign to put the bonds over.

Canary Bandit

(By International News Service)
ST. LOUIS, Mo., June 29.—Enter the most eccentric thief—a sort of Robin Hood. In St. Louis he's known as the "canary robber." Five women have reported to police the theft of their canaries. Two of the birds, after being freed by the "bird burglar," returned to their cages, which were left open.

EAT LESS MEAT
IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
The moment your back hurts or kidneys aren't eating right, or if bladder bothers you, you get four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

GOOD WORDS CLUB
GROWING RAPIDLY

(By Kathryn Stanley)
The Good Word club, organized by Mrs. Gilchrist last week, is growing rapidly, eight new members being taken in Monday. There were three visitors present.
The children said they found it easier to "wash dishes" now for they knew other children were doing it and didn't like it either, and all agreed they were going to do it more willingly and try to learn not to dislike it. A sunflower was used to show how many, many seeds come from the planting of one good seed and the children were shown how their good seeds in the way of words and deeds would grow in the same way.
A magnet was also used to show how like attracts like, or bird of a feather flock together and it was explained that if they were loving, kind and true, they would attract to themselves good things; and again, our chickens come home and to roost and if we send out good deeds it will be pointed: By Laws Committee: Sybil Townson, Marcia Crocker, Kathryn Stanley, Eveline Townson, Josephine Hogue.

WAYS AND MEANS COMMITTEE:

Grace Carmack, Barbara Stamps, Francis Chambers.
AUTOMOBILE COMMITTEE: Alvin Merrick, Kathryn Stanley.
FLOWER AND VISITING COMMITTEE: Mary Ann Merrick, Genevieve Merrick, John Paige, James Fathurs.

Much interest was shown the suggestion of organizing like clubs in near-by towns, also the suggestion of visiting the sick of all ages and taking flowers and fruit.
Owing to next Monday being the 4th of July, there will be no meeting. The next meeting will be July 19th 2 p. m., at 230 West Colorado street. It was voted to fine each tardy member one cent.

DEATH OF W. R. IRELAND

W. R. Ireland passed away last night at a local sanitarium. He and his widow had been residents of this city for only a few months and came here from Los Angeles. They are related to Mrs. W. J. Smith of 305 North Maryland.

EVOLUTION OF
NUDITY STUDIED

(By International News Service)
PARIS, June 29.—Ever since the French Senate decided to call upon the Government to suppress "immoral" scenes in Paris theatres and to forbid nude women from appearing on the stage, French writers have been busy consulting history as to when women first appeared on the stage clothed only in "nature's robes."
They have discovered that women, and men as well, appeared nude on theatre stages as long ago as 2000 years B. C. In ancient Syria during the Venus, celebrations women absolutely naked and not even wearing a string of beads, as they do in some places in Paris, would sing songs of praise to the goddess. It was the custom, in those days, with the Syrians, once a show was over, to call upon actors and actresses to disrobe and scenes were either asked politely to leave or were thrown out.
From nudity and morals these same French writers stepped over to the history of marriage and Napoleon the First's morals. It appears Napoleon was a pure moralist and did not believe in love. "I do more than deny the existence of love," he would say, "I believe it to be detrimental to society and to the individual happiness of man, and I firmly believe it does more harm than good." Evidently his wife, Marie-Louise, was of a different opinion, for she was thrice married and had at least two illegitimate children—one, Count de Montenuovo, being born three months after Napoleon's death.

TO MY FRIENDS:

I thank you for the support you gave me at polls Tuesday and assure you that as a loyal, well-wishing citizen and business man of our beautiful, progressive city of Glendale, I stand ready at any and all times to sing the praises of our town, and take this opportunity to express my good wishes to the successful candidates at the ballot box yesterday. Men may come and men may go, but principles, like the truth, go on forever.
Yours for a Greater Glendale,
R. M. MCGEE,
614 East Broadway.

FIND USES FOR
SURPLUS SLATE

WASHINGTON, June 29.—In order to find a useful outlet for waste material at slate quarries tests have been made by experts of the United States Bureau of Mines to determine its value as a filler in asphalt road surface mixtures.
According to statistics, 80 to 95 per cent of the gross production of all slate quarries in the United States is discarded as waste, and the laboratory tests were undertaken for the purpose of devising the best means of reducing the proportion of waste, the utilization of the unavoidable waste to the end that the added cost of the finished production be reduced.
Actual tests in laboratories of companies preparing road asphalt mixtures indicate that for resistance to impact slate flour is equal to other fillers in bonded briquets and somewhat superior in sheet surface mixtures. In cementing value it is superior to both limestone and Portland cement in asphalt bonded briquets and intermediate between them in standard sheet surface mixture. Tests show that slate flour contains approximately 15 to 25 per cent more of the fine dust that constitutes effective filler than either limestone, trap rock or Portland cement. In volume weight it is about equivalent to limestone and approximately 10 per cent superior to Portland cement. The cost of slate flour is little more than half of Portland cement, but its ability to compete in price with limestone is not yet established.
The Bureau is careful to point out

PRINCESS MARY
MAY BE ENGAGED

(By International News Service)
LONDON, June 29.—Court gossip has announced the betrothal of the Princess Mary to Lord Apsley, eldest son of the Earl of Bathurst. The report cannot be confirmed, but it is learned that during the polo game at Hurlingham, when the Americans were playing the British Princess Marie Louise, a cousin of King George, told friends that the betrothal occurred last week at Windsor Castle, where Lord Apsley was a guest for the Ascot races.

Queen Mary is said highly to approve the match. She likes Lord Apsley, who is a typical young English aristocrat and a tall, scholarly young man who is worthy to be the escort of the only daughter of the royal house.
The rumored groom-to-be is twenty-six years old, two years older than the Princess. They have known each other since childhood and it is declared to be a real love match.
The Bathurst earldom is but 150 years old, but no surprise is felt that this fact has not interfered materially with the supposedly projected union of the princess with the heir of a peerage not of ancient creation.
Lord Apsley's mother is the gifted proprietor of the Morning Post, the organ of the British aristocracy.
That while the tests already made are not sufficiently comprehensive to give conclusive results they are definite enough to suggest possibilities of such importance as to induce further and more extended research both by slate producers and by manufacturers of asphalt road mixtures. The Bureau of Mines is convinced from its tests that the use of slate flour as a filler in asphalt road surface mixtures would result in improved highways and that a wide use of such filler would afford a profitable outlet for waste slate, with consequent advantage to the slate-producing industries.

BEARS ENDANGER
CHILDREN'S LIVES

(By International News Service)
TACOMA, June 29.—While Tacoma is a city of 100,000 persons and old hunters say that it has been twenty years since a bear has been killed within the city limits, a meeting of the mothers and fathers held recently at Cedar Heights, a mile and a half from the heart of the city, revealed the fact that bears and other wild animals are lurking in the woods, and they have petitioned for the erection of a school nearer their homes, so that the children will not have to pass through the woods every day.
The parents asked that the school building be erected at Cedar Heights. The school board investigated the district some time ago, but, on finding only twelve school children, endeavored to find means of transportation. The roads were so rough that the plan was dropped.
The parents at their meeting recounted tales of having seen bears lurking in the woods and that the weird cry of a cougar has been heard at night. They declared that this time of the year bears who are with young are dangerous and that a cougar can never be depended upon to refrain from attacking children.
The veracity of the residents of the district is not to be doubted, members of the school board say, and it is likely that a school house will be built at Cedar Heights.

Remorse

(By International News Service)
PARMA, Mo., June 29.—Burglars rifled the cash drawer of a local store and secured a small amount of money. Two days later a heavy letter came to the proprietor. It said:
"Here are the twenty-two pennies we got from your cash drawer. Have more in the drawer next time."

Little Love Tests

(By International News Service)
ST. LOUIS, Mo., June 29.—Gus Nuernberger and his wife quarrelled. She said she'd kill him, according to Gus. He said he'd "beat her to it." She found a note from Gus asking that "you bury me in my wedding clothes."
"I was playing 'possum to see if she loved me," Gus told police several hours later when they found him lying on the kitchen floor with gas jets open.
Gus will have a good many years in which to frame up other "love tests," physicians declare.

PERSONAL MENTION

Mrs. Edith Dockery, who recently sold her property on Birchett street, is now located with her daughter and son-in-law, Mr. and Mrs. J. W. Heahle, at 723 South Louise street.

The work of wrecking the big Christian Endeavor convention auditorium will begin early tomorrow morning under the direction of George Higby of Long Beach. The building will be erected in Los Angeles in preparation for the John Brown meetings there in August.

Miss Harriette Light of 1900 Gardena avenue, is leaving today for a fortnight's visit at Long Beach.

In honor of their house guest, Miss Alice Merritt of Glendora, Mr. and Mrs. F. L. Fox of 345 North Kenwood street entertained at dinner and a theater party, on Monday evening, Mr. and Mrs. W. A. Tanner of North Louise street.

Fred Hoffman, chairman of the page and guide committee, whose work in the Christian Endeavor convention has done much to make it the success it is, was busy this morning securing flowers for two of his committee members whose strenuous work has resulted in their illness.

Miss Laura McQuiston of Rialto, is the guest of her sister, Mrs. W. R. Vanderwood, of 519 North Kenwood street.

Mr. and Mrs. H. Roeder of 344 North Maryland avenue are spending a couple of weeks with their daughter in Paso Robles.

A Missionary Tea will be held this evening about 4:30 at the Presbyterian church. All missionaries and those who are preparing for missionary work, will be the guests. The repast is under the direction of the entertainment committee of the Christian Endeavor.

Mr. and Mrs. F. W. Chambers of 736 South Glendale avenue have as their guest during the state Christian Endeavor convention, Miss Beryl Dunning of Los Angeles.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

TELEGRAPH BRIEFS

(By International News Service)
WASHINGTON, June 29.—Major General John L. Hines was today assigned command of the Second Division, United States Army at Camp Travis, Texas. The Second Division command is regarded as the most important field command in the army.

LONDON, June 29.—The Kurds have risen in revolt against the Turkish Nationalists in the region of Konich, said an Exchange Telegraph dispatch from Smyrna today. Mustafa Kemal Pasha, head of the Turkish Nationalist government, has sent a division of troops against the Kurds.

LONDON, June 29.—Miss Elizabeth Ryan of California and Paris today won the right to play Mlle. Lenglen, champion, in the challenge round of the women's singles in the British tennis championship tournament. She defeated Mrs. Satterthwaite, 6-1, 6-0. She probably will play Mlle. Lenglen Friday.

LONDON, June 29.—Eamonn de Valera's non-committal message to Premier Lloyd George is no conducive to Irish peace, according to opinions expressed in Irish official circles today. De Valera did not indicate whether or not he would accept the premier's invitation to a peace parley.

CHICAGO, June 29.—Leonard Banks, paroled bank robber and for years one of Chicago's most notorious gunmen, was riddled with bullets and killed in a gun battle today with the police. Banks, who had been drinking, was ordered home by two policemen, but refused to go and started firing.

WASHINGTON, June 29.—One of the most unusual meetings Washington ever saw was held today in the auditorium of the interior department. The President's all the members of his cabinet and all the "little cabinets," composed of bureau heads and their assistants within each department, got together around a common table.

CHICAGO, June 29.—Railway labor chiefs en route or already gathered here to canvass the 12 per cent wage slash which, by order of the United States railway labor board, will chop \$400,000,000 from railway workers' pay, were confronted today by a further adverse action by the board.

ROME, June 29.—The volcano Mount Stromboli, on the Sicilian coast, continues active, but no victims had been reported today.

LONDON, June 29.—Lady Randolph Spencer Churchill, an American woman, died at her London home today as the result of an infection arising from an amputated foot. Lady Churchill recently suffered a fall, in which her left foot was injured. An operation was performed, but blood poisoning developed.

WASHINGTON, June 29.—The total interest-bearing debt of the United States on April 30 last was \$33,759,514,102.91, it was announced at the treasury department today. Matured interest obligations brought the gross debt up to \$23,858,597,542.43 on that date.

GOOD LAUNDRY AGENCY

You Can't Buy A Packard for the Price of a Ford

Neither can you buy meat from choice young steers for the same price as you can that from old cows, etc.

The Glendale Market enjoys one of the largest meat patronages in Glendale for the reason we are extremely careful in selecting meats. Our buyer personally visits the packing houses and chooses only the choicest quarters—for which we pay a little more and charge a trifle more. The difference in what we charge, however, for the best meats, and what some charge for inferior grades is so small as to be scarcely noticeable. People who enjoy eating tender, luscious steaks and other cuts, appreciate the quality of meat we sell, and are our regular patrons.

You, too, would be pleased with our meats and service, if you would but give us a trial.

WEDNESDAY, JUNE 29, 1921

GOOD-BYE

Today Glendale says good-bye to the Christian Endeavor convention, and it does so with sincere regret. Never have our streets and assembly halls been thronged with such a fine lot of young people, the very flower of California. Never have we seen so much enthusiasm and pep and spirit of high adventure. Our only hope in letting them go is that they will come again at some future day in even greater numbers.

ALL HAIL!

The beauty of a government like ours is that its democracy manifests itself in all the units of the great whole. While a national election is an affair of great concern to voters, their more immediate interest centers in the town in which they live and the sort of government it maintains. And so it is entirely natural that a municipal election such as was witnessed yesterday should be a warmly contested affair of candidates representing a variety of policies, and equally natural that the electors should thus seek to establish favorite policies. The most ardent campaigner was ready to agree, however, that the candidates of factions to whom he was opposed were good men and to affirm that the prosperity of the city would not suffer in the hands of any five who might be chosen, whether any whole ticket was elected or whether split by the personal pull of certain popular office seekers.

The selection of the five men who received the largest number of votes as candidates for the new City Council will therefore be accepted with philosophy if not enthusiasm by all citizens, and the loyalty of the citizenship of Glendale to these officials can be depended upon. It is not democratic to cherish disappointments or harbor party rancors.

All hail to the new City Council of Glendale!

THE DAY FOR THE INVESTOR

When prices were at their peak during the war and immediately after, the investor whose capital was tied up in "gilt edge" securities suffered perhaps more than any other class of citizens. This was especially true of widows with families who were dependent for their income on the revenue brought in from bonds and other securities. Their 5 per cent or 6 per cent coupons remained the same, while the cost of living expenses soared higher and higher. But the investor's position is rapidly changing. As prices come down and incomes remain steady the pinch of living is easier.

There is also in this change of conditions an urgent incentive for every man to save as much as possible. The demand for capital has greatly increased and investments are paying high returns at the present time. Funds can be invested at a rate fully 30 per cent over what could have been obtained two years ago. And the income which the investor receives will go from one-third to one-half farther than at that time.

Many people are having their ups and downs, but this is certainly the day for the investor. Individuals who will make the sacrifice to save and invest will not rue the day.

WOMAN'S COZY CORNER

By JOSEPHINE FRANCE

New Methods With Eggs

Eating eggs for breakfast seems to be a well-known universal human habit. In all countries where there are hens, eggs are a favorite breakfast dish. And so devices for cooking and serving eggs are almost innumerable. One of these that seems to have made little progress in popularity, but which deserves universal usage, is the bone egg-spoon. A silver spoon is not a fit tool with which to handle an egg. The sulphur of the yolk acts immediately on the silver and affects it so quickly that there is a taste of metal as the egg is eaten. After using, the metal is tarnished and must have a thorough cleaning. The bone spoon is slightly, clean, and saves labor. It costs from eight to twenty-five cents and so is easily within reach of the most modest purse. It will please a fastidious egg eater by obviating the taste of the metal.

For opening eggs at the table there is an imported novelty that prevents accident and consequent "messing" of the table cloth. This egg opener looks like a pair of scissors but instead of blades there is a circular contrivance fitted with notched teeth. The circular portion is fitted about the top of the egg about a half inch from the tip, the teeth are pressed in until the notches penetrate the shell and then the apparatus is lifted with a section of shell in its jaws. These egg openers are obtainable at any shop which handles imported novelties and may be purchased for about fifty cents.

Various Devices for Serving Eggs

To keep a soft boiled egg hot at the table there is a special egg cup. This cup is intended to be filled in the kitchen and then set on the table. It is a very handsome affair, shaped something like a frappe glass. The base stand is made of German silver, copper, or brass plated with nickel, or it may be silver-plated. The cup part is made of glass. The method of keeping the egg hot is to heat the glass cup which sits in the base at its top. In the top of the base is placed a small quantity of very hot water. Then the egg is placed in the glass cup, and the cup set in the hot water. The base is so built that between the cup and the hot water a vacuum is created which will keep the egg hot for fifteen minutes. The cup is intended for soft boiled eggs and is handy in a family where the members come in for breakfast one by one. The price varies from one to two dollars.

For boiling eggs at the table there are many devices. One imported novelty is made of polished brass. It has

a base which contains an alcohol lamp, and an egg-shaped body with a hinged top, upon which a cock stands apparently crowing lustily. This fair costs five dollars. Another boiler is made of copper, brass trimmed. It is very handsome and would grace any table. It also has the advantage of being an automatic cooker. A certain number of eggs are put into the boiler, depending upon its size, and then the receptacle for alcohol at the base of the lamp is filled up to a 3-minute mark. The water is then put in the boiler, and it, too, is measured, and the lamp lit. The alcohol burns just long enough to cook the eggs to perfection. This type of boiler comes in several sizes and combinations of metal. One of the most elaborate and handsome of these is a complete set, consisting of egg boiler six metal egg cups, with places for hot water and china or porcelain insets, a castor for salt and pepper, and a gold-plated egg opener, all of which rest on a mahogany finished tray covered with glass. Another set adds a coffee pot, a toast rack and two coffee cups. A daintier addition to a breakfast table would be hard to find.

For serving shirred eggs, omelets, scrambled eggs, or egg combination dishes nothing is more effective or practical than the brown earthenware so deservedly popular. Many of these egg dishes may be cooked right in the earthenware and served in it as well, thus saving labor. White lined earthenware is preferable to the plain brown; it is daintier, and has many styles of ramekins, individual cups, and flat dishes all suitable for egg serving and cooking.

Two new egg poachers deserve mention. One of these holds seven eggs, and is excellent for a large family. The egg compartments are hexagonal in shape and may be lifted by pressing a lever in the handle. The other poacher is more elaborate. It is made of aluminum, and when closed, looks like a deep pan with a handle. With in there is a holder for hot water, then a frame which contains five or six holes into which fit little individual egg holders, each one with a handle for lifting. A lid is tightly over the top. The whole poacher is very good looking; the handle is black and will not heat; and the small knob on top of the lid is also black, in dull finish. Eggs cooked in this dish could be taken to the table and served in the small egg holders which fit nicely over a cup. Nor can an egg be broken, as every one is cooked individually; if it is desired to serve it in a separate dish, it may be removed without touching another egg.

STUDIO NEWS AND GOSSIP

The wildest ride that Victorville, Cal., once the headquarters of the toughest men the West has produced, has seen in many years, was that of Buck Jones, the Fox star, and Pat Harmon in the making of "Firebrand Trevison," on the great Verde ranch. The picture is adapted from a story by Charles Alden Seltzer and directed by Thomas N. Heffron. One scene called for a ride of nearly a mile in which Harmon, as the villain, was pursued by Buck Jones. The villain on a light pony, the fleetest of foot on the ranch, was turned loose in a pasture some two miles in length lying in a bottom along the Mojave river.

Buck, on Blondy, his sorrel horse, fifteen hands high and weighing 1,000 pounds, thought he would have an easy time to catch Harmon, as the picture required; but the pony ran with such speed that Buck had to chase him for more than half a mile to get within shooting distance.

"Blondy is one of the fastest horses I ever rode," said Buck, "but that pony sure can travel."

Half the population of Victorville was out to see the race, which furnishes one of the big thrills in "Firebrand Trevison."

Claire Adams is rapidly becoming

the screen's greatest emotional actress. Her role in "The Man of the Forest," Benj. B. Hampton's great photoplay of the novel by Zane Grey, a Hodgkinson release, is positive proof. Moreover, she is growing more screen beautiful and graceful than ever before.

Natural talent, even genius, cannot teach one shadow-stage art in a day, and the actor or actress who does not progress with each picture, even after years of experience, is a laggard. Miss Adams has made wonderfully rapid progress in the short time she has been before the camera. She has a natural fire and talent, and a wonderful inborn ability to act.

The talent is there in her portrayal of "Helen Raynor" in "The Man of the Forest"—brought out, broadened and strengthened by a polish and sureness of technique that marks Miss Adams' progress from her first pictures. She has a strong, calm, poised naturalness of manner that builds for her a "different" screen and the keynote of her acting, and personality. Sincerity is her motto this sincerity, combined with that inborn inspirational fire, make Miss Adams' climb to fame one of the most meteor-like on record.

POPULAR SCIENCE

The value of milk in the diet is shown impressively in an exhibit of two stuffed rats prepared by the U. S. department of agriculture. The rats were of the same size, and were selected from two cages of six rats each. The rat which had its cereal diet supplemented with milk is a large boned, well developed specimen, while the animal which was fed no milk is an undersized weakling with skin clinging to poorly developed bones. In life the rat supplied with milk displayed healthy tissues, muscles and bones, and was marked by smooth hair, bright eyes and good muscular tissues. The mineral, especially lime, produces strong bones, and the food accessories, or vitamins, insure growth and health. The rat deprived of these necessary food constituents had weak gelatinous bones, thin muscles, and small growth. Both rats had

TO INVESTIGATE ZONING ORDINANCE

Members of the directorate of the chamber of commerce were slow to assemble for their regular business session at the chamber Tuesday noon.

When the meeting was finally called to order by President Cooper, those present were: Directors Lusby, Kent, Bentley, Smith, Ferry and Gregg.

The applications for membership of C. P. Reynolds of 800 East Palmer and of the Barnes-Schuck Music company were presented by Secretary Rhoades and favorably acted upon.

A request from City Manager Watson that the directors interest themselves in the zoning ordinance, now before the city trustees for consideration, was presented by Mr. Rhoades and the point was raised that members were not sufficiently acquainted with the terms of the proposed ordinance.

On motion of Director Huntley the board therefore instructed the president to appoint a committee of three to investigate the matter and report at the next meeting. Mr. Cooper agreeing to make the appointments a little later.

A communication from City Manager Watson to C. C. Cooper as an interested business man and president of the chamber was read by the secretary in which the writer stated that the signatures secured to date on the petitions that have been circulated for sewer units in the business district now represent a frontage of 1692 out of a total frontage of 6500 feet in the proposed district between Colorado and Wilson and Orange and Maryland. He stated that 1568 additional frontage must be signed up to secure the necessary majority and urged that members get busy with the petitions and if possible secure 75 per cent of the frontage without delay so that the petitions can be presented to the city trustees at their regular meeting July 7.

There being no further business the meeting adjourned.

PRaises CHRISTIAN PARADE DRAWS ENDEAVOR SOCIETY IN CALIFORNIA LARGE CROWDS

One of the most delightful features of last evening's session of the Christian Endeavor convention, was the singing of the anthem, Gounod's, "By Babylon's Wave," by the choir of 150 voices. This selection was first given by the choir on Sunday evening and they repeated it last evening at the request of many of those who heard it.

Dr. Landrith's Speech

Ira A. Landrith, D.D., L.L.D., extension secretary of the World Christian Endeavor movement, was the speaker of the evening.

Dr. Landrith paid numerous witty compliments to the California Endeavorers, lauding them for the size and enthusiasm of their conventions as compared to those of other states.

The chorus and its leader, Robert S. Maile, also received their share of praise.

Dr. Landrith, in a forceful address set forth the chief points of progress attained by the world in the last four years, and claimed that this wonderful history could not have been made but for the Christian influence in men's hearts, growing out of the impressions made on them by 40 years of Christian Endeavor work.

A Great Age

Dr. Landrith claimed that the Master's promise: "Greater works than these ye shall do," had been fulfilled in these last four marvelous years, and in our country, when American soldiers had made the world safe for democracy, when American men had granted women suffrage and when American men and women had passed the 18th amendment.

The granting of suffrage to American women the speaker characterized as a great step forward, since it follows that with the enfranchisement of women, the ideals of Christ will permeate the world.

The world will go dry, said Dr. Landrith, because America went dry.

The Need of Today

This is the age of young people, the age when youth is called to positions of responsibility, said the speaker, we must make these new-fashioned youngsters religious. The need of the world today is old-fashioned religion. This is the consensus of opinion of men in all walks of life.

Christian Endeavor was called into being by God when He needed it. It has influenced myriads of young people, it has transformed thousands of homes, it has blessed great numbers of little children.

Christian Endeavor Training

Christian Endeavor alone has brought more young people to missionary work than the board of missions can send. Its influence in the lives of all of its members is tremendous. It has trained young people to systematic and proportionate giving so that after 40 years of its training the people in the churches today have the faculty of management and of raising money for churches, philanthropic, educational and missionary work.

"I believe that the church of tomorrow will be the most tremendously efficient and triumphantly militant organization in the world; and I believe that the three great events of the last four years, the winning of the war, the national suffrage, and the elimination of the liquor traffic, are the result of efficiency of Spirit-filled churches."

NEW LEADERS CHOSEN BY THE ENDEAVORERS

Glendale Honored by Having Two Representatives Among the New Officials for the Coming Year—Convention Will Close This Evening With Services

The list of the new officers for the next year chosen by the delegates of the California Christian Endeavor Union was completed today with the exception of two offices, which will be filled by the nominating committee today and announced at this evening's meeting.

The list comprises: Reese Martin, Berkeley, president; Garner R. Searl, San Jose, vice president; Lawrence Downen, Fresno, vice president; Dr. Harry E. Straub, Los Angeles, general secretary; James Cooper, Glendale, treasurer; Miss Lula Minter, Santa Ana, corresponding secretary; Miss Tillie Genter, La Jolla, assistant corresponding secretary; Miss Edith McDonald, San Francisco, intermediate superintendent; Ralph C. Isbell, Los Angeles, assistant intermediate superintendent; Miss Mary G. Brown, Riverside, junior superintendent; Miss Wilma Harris, Long Beach, assistant junior superintendent; Mrs. Martin Farnham, San Jose, prayer meeting

superintendent; Miss Jessie Works, Hanford, Tenth Legion superintendent; Mrs. Grace Vogt, Sacramento, hospital superintendent; Mrs. Harold Cross, Los Angeles, introduction superintendent; Carl White, San Pedro, citizenship superintendent; Earl Hamilton, Long Beach, missionary superintendent; Miss Doris Becker, Los Angeles, quiet hour superintendent; Mrs. Royal J. Dye, Hollywood, recruit superintendent; B. I. Valentine, Glendale, press superintendent; Robert G. Rogers, San Pedro, army and navy superintendent; Willard Robinson, Lodi, lookout and extension superintendent; Miss Mildred Orr, San Luis Obispo, social and recreation superintendent; Miss Una Pine, Grass Valley, efficiency superintendent; Andrew R. Schottky, Merced, alumni superintendent.

Glendale is honored by having two representatives in the corps of officers: James Cooper, treasurer and B. I. Valentine, the retiring president, who is now press superintendent.

float were seated a family, father, mother and two children reading the Bible. Mottos such as "Other Foundation Can No Man Lay," "The Bible, the Sure Foundation," "Don't Forget Mother's Book," decorated the float, and at the back appeared a sign, "We Recommend the Community Bible Reading Course."

Riverside Banners

Delegates in the Riverside delegation carried banners bearing these inscriptions:

"15 Minutes a Day Will Cover the Entire Bible in a Year"; "Our Goal: An Open Bible in Every Home"; "Back to the Bible or On to Anarchy"; "Be a Booster for Your Community."

Other Floats

Glendale's pages and guides entered a most significant float. An empty throne bore the legend, "Where Is He That Is King?" Beneath it was the question, "Is He On the Throne of Your Heart?" and about it were seated six boys in the costume of court pages, of purple and gold. Behind the float marched the pages and guides of the convention in their regular convention uniform.

Another very telling effect was produced by the float entered by the Christian Endeavor Mission at San Pedro—a life boat manned by John Makins, mission worker, and bearing the legend, "Help Us Man the Life Boat."

County Hospital Christian Endeavor workers had a float that called forth much comment, also.

"Glen and Dale"

"Glen and Dale" in beautiful costume, reminiscent of a former day in the golden state, marched proudly along amidst the cheers of the beholders.

Best Parade Yet

Delegates who have attended many conventions pronounced this parade the largest and the best ever seen at a state convention.

Miniature balloons carrying scientific instruments for recording atmospheric conditions have risen as high as 90,000 feet before bursting, when the instruments are brought down by a parachute.

THREE OF BROWN BOYS IN WORK

That Christian training pays large dividends thoroughly exemplified in the careers of the members of a certain Brown family in Glendale, two members of which have taken such prominent parts in the great Christian Endeavor convention now drawing to a close.

The quiet, resistless force behind these splendid young men and their even more distinguished brother, the force that has from their very babyhood constantly pointed them to the upward way, is a dear little gray-haired mother whose voice is never lifted in a public gathering and whose home is the dearest place on earth to her. She is Mrs. Fannie L. Brown of 410 North Maryland avenue.

MRS. FANNIE BROWN

Born in Oregon, Illinois, more than 60 years ago, she came to California when a girl of 17, making her home in San Bernardino. There she married J. B. Brown in 1875. Two of the three sons, Paul and Walter, were born there. In 1882 the little family moved to Los Angeles, where Howard was born. The head of the family established a very successful business for the sale of musical instruments, which he conducted until 1907, when he sold to a competitor. He died the following year.

In 1912, the widow moved to Glendale and built a fine home at 118 West Colorado boulevard. She has made her home in Glendale most of the time since then, though not in the same place, selling that property and building last year on North Maryland. The youngest son, Howard, built just next to her. Paul lives in Los Angeles and Walter is in London, England, where he went a short time ago to take up Herbert Hoover's work as

WALTER BROWN

for organization, and the venture has been a paying one, for Christian Endeavor. He is the life of every state convention and the best loved of the many workers.

Howard, the youngest son, is a Glendalian. Much of the success of the convention this year is due to his genius in looking after details.

Asked what was the source of her three noble sons' marked success and wide influence in Christian work, the little mother replied: "Our boys were taught from earliest childhood to love God's house and His work. They always stayed with their father and went to church and came to enjoy it. All three joined the Christian Endeavor as soon as they were old enough, and from the very first took genuine delight in doing the Lord's work. Without taking any undue credit for my own work and that of their father in the training of these boys, of whom I am so proud, I simply want to point to their lives as showing that Christian training does enable a man to take a high place in the world's work."

PAGEANT PROVED AN INTERESTING FEATURE

A pageant, under the direction of Mrs. E. B. Walberg intermediate superintendent of the Temple Baptist Christian Endeavor, Los Angeles, termed, "Winning the Youth," which depicted the work and spirit of the society, proved the interesting feature of the Intermediate session held at the convention auditorium yesterday afternoon when Miss Edith McDonald presided.

The pageant consisted of a series of tableaux delineating the uplifting power of religion and the part played by Christian Endeavor societies in making this work a vital influence. There was a plea made for foreign missions, for a broader application of education and for a greater willingness to engage in religious service.

Merit banners were presented by Miss McDonald to Christian Endeavor societies in the state which had attained the highest rating. The Berkeley Baptist Intermediate Christian Endeavor earned the banner for greatest efficiency during the past year while the honors for attendance went to the San Bernardino Intermediate Christian Endeavor. Miss McDonald stated that few if any Christian Endeavor organizations in the country had attained as high a rating as these two.

Imbued with the spirit of the "booster brigade" Paul C. Brown, state field secretary, spoke of the vast growth of Christian Endeavor societies throughout the country and urged that those here as delegates return to their home towns and exert every effort to organize further societies so that California may continue to hold the enviable lead it has maintained in this field. More than a score of persons responded to Mr. Brown's request that pledge cards be signed indicating a willingness to organize new societies of Christian Endeavor.

"The objective point of us all is heaven, though we choose different roads. What difference whether we go by land or sea, by airplane or Ford. Now why do you laugh at the Ford? It's the only car that will go up on high."—Dr. Ira Landrith.

"If all the denominations had saved all the ammunition they have shot at each other and turned their guns on the enemy, we'd have the devil on the run by this time."—Dr. Ira Landrith.
